

Raymond Terrace update

Upcoming projects, April 2023

26 May 2023
**Illuminate
Raymond Terrace**

May to August
2023
**Placemaking
activations**

June 2023
**William Street
Revitalisation
Stage 2 works**

In 2021, the Raymond Terrace Public Domain Plan was adopted, setting out the long term vision to improve the town centre. It provides a great overview of our plans to improve the public spaces in Raymond Terrace – take a look at it on Council’s website. One of the key aims identified in the plan is to create a better connection between the primary shopping precincts of the town centre and create a more inviting environment for people to linger and enjoy Raymond Terrace.

What’s the latest update?

We recently completed Stage 1 of the William Street Revitalisation works at the William Street crossing including improved lighting, architectural shade structures and decking with seating and planter boxes. This project was first outlined in the public domain plan as a strategy to meet the aim of creating better connection and a more inviting environment. Stage 2 is due to be completed in June this year.

There’s a lot happening in Raymond Terrace over the next few months, with a number of road improvements, public spaces improvements and activations – read on for more information.

Upcoming projects and events across Raymond Terrace

New shared path, King Park – Grant and developer contributions

Start – October 2022 | Estimated completion – April 2023

- New shared paths are currently being built to better join residential areas to the town centre. These works are part of the King Park master plan.

ANZAC Park, Jacaranda Avenue - commemorative wall – Reserve and grant funding

Start – October 2022 | Estimated completion – April 2023

- New commemorative wall and park improvement
- Ready in time for Anzac Day 2023

Boomerang Park - basketball hoops and BBQ – Grant and Council funding

Start – October 2022 | Estimated completion – April 2023

- New basketball hoops are installed to make the croquet court area a more multi-purpose space
- Replacement BBQ to be installed near playground area

William Street revitalisation stage 1 works – 90% funded by NSW Public Spaces Legacy Fund

Estimated completion – April 2023

- Minor outstanding works including balustrade installation and painting are now completed
- Existing planting is temporary and will be replaced as part of Stage 2 works following irrigation installation

Illuminate Raymond Terrace event – 100% funded by State Government grant

Event date 26 May 2023, 5pm - 9pm

- Riverside Park, 26 May 2023, 5pm - 9pm
- Family friendly event of fire and lights. All welcome!

Placemaking activations, William and King Street – 100% funded by State Government grant

Start – May 2023 | Estimated completion – June 2023

- Makeover of old Fire Station site for community corner on William Street
- Art in the streets including pavement stamping on key footpath sites to add colour

William Street revitalisation stage 2 works – 100% funded by NSW Public Spaces Legacy Fund

Start – April 2023 | Estimated completion – June 2023

- Tender and works agreements currently in progress in preparation for works
- Works include primarily landscaping and street furniture

Road and traffic improvements – 100% funded by Federal Blackspot Funding

Start – April 2023 | Estimated completion – May 2023

- Traffic calming and pedestrian access improvements around key intersections
- Extension of the existing 40km/hr high pedestrian activity zone

Road and traffic improvements – Sturgeon Street road works – Grant and Council funded

Start – mid 2023 | Estimated completion – 2023

- Reconstruction of the section of Sturgeon Street between Glenelg and Swan Streets
- Works will involve a temporary detour for traffic to assist in improving worker and resident safety and reducing costs

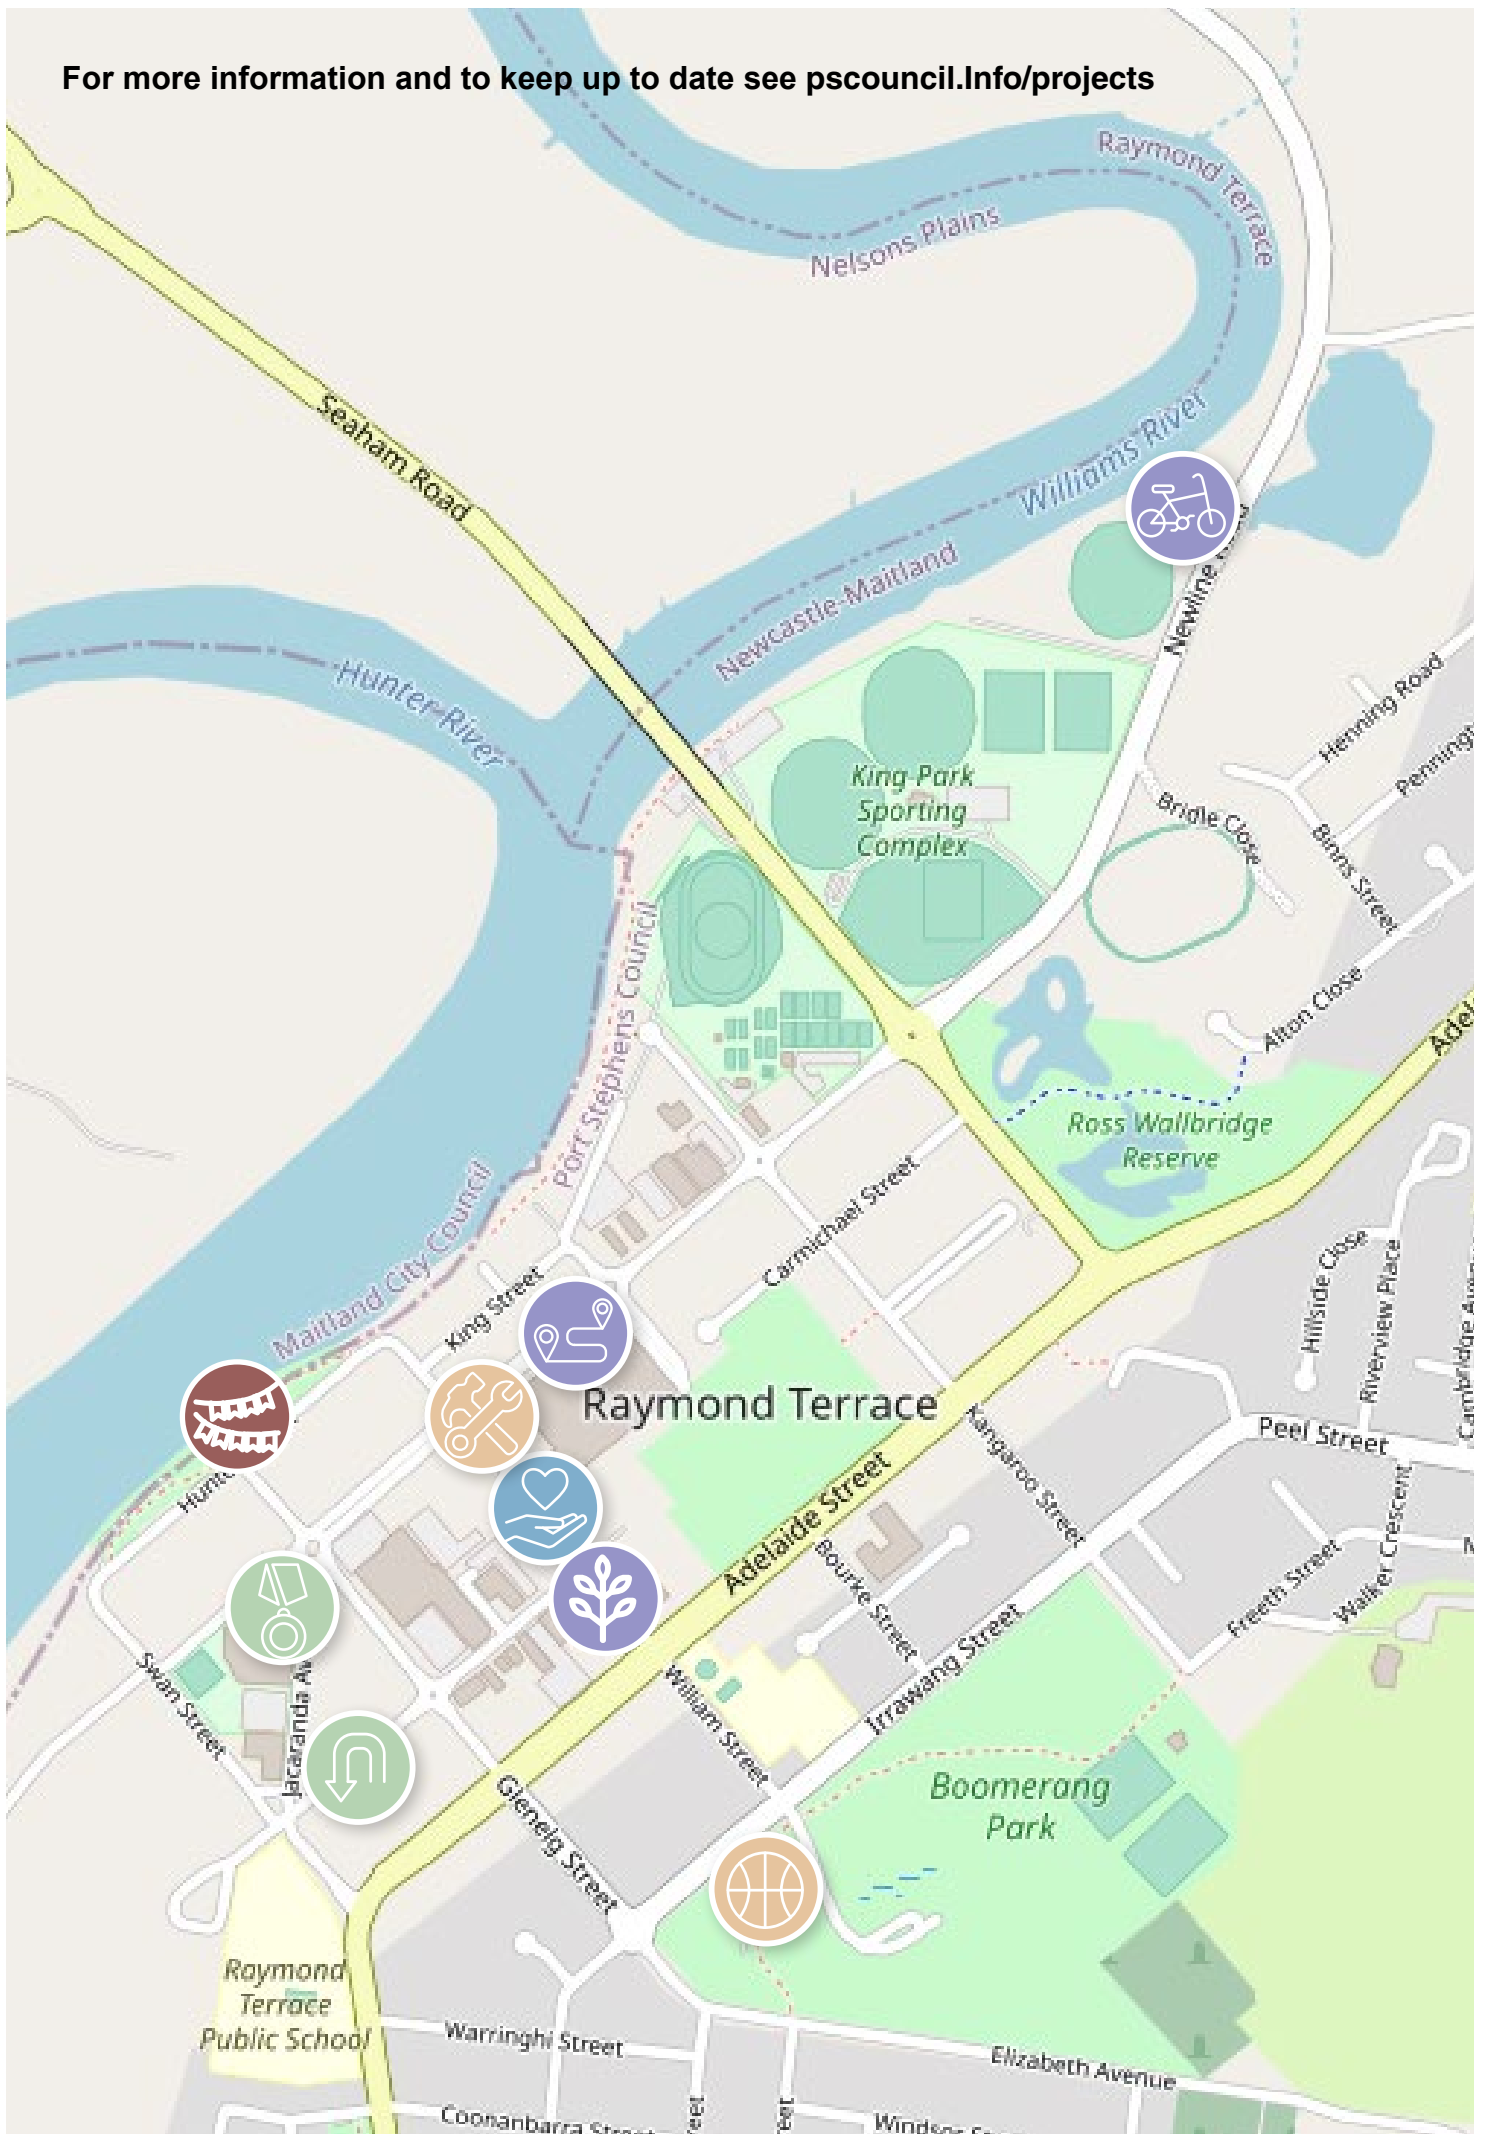

Road and traffic improvements – William Street – Grant and Council funded

Start – April 2023 | Estimated completion – May 2023

- Replace wheel stops with low profile strips to assist people reverse parking in William Street. These low profile strips will provide guidance for drivers to use when parking and are less likely to fail under pressure from the weight of vehicles.

What's planned next for Raymond Terrace?

These 3 projects will contribute to a vibrant and welcoming town centre that we'll be proud of.

Illuminate Raymond Terrace Riverside Park

26 May 2023 5pm to 9pm

Family friendly event of fire and lights, live music, silent disco, roving artists, community parade, food trucks and fireworks.

Placemaking activations, William and King Streets

These works are fully funded by the State Government and will include:

- makeover of the old firestation site to create a community corner
- improvements to King Street and the marriage trees site to better celebrate the history
- pavement art designs
- new artwork program
- wayfinding and interpretative signage

William Street Revitalisation Stage 2

These works are fully funded by the NSW Public Spaces Legacy Fund and are designed to improve the function and aesthetics of William Street.

These works include:

- removal and replacement of existing landscaping including hedging
- landscaping around existing street trees
- cleaning and replacement of damaged pavers
- new custom seats with canopy shade shelters
- new entry signage

The removal of the hedging plants along William Street will help provide better visibility for both pedestrians and drivers.

The existing street trees along William Street will be retained as part of this project and will also be subject to an arborist assessment.

The custom seating with shade shelters will be discussed with the business operators that are near to the planned locations.

Keep up-to-date with the various works
